Summary

Highly motivated and detail-oriented final-year student with strong skills in web and app development using React, React Native and AWS. Proven track record of excellence, including winning the Best Project award for an AR mobile application. Completed an internship at Nokia as a App Developer, demonstrating expertise in developing robust and scalable application. Passionate about innovative technology and eager to apply my skills in a dynamic and collaborative environment.

Work Experience

App Developer Intern, Nokia   July 2023 – Dec 2023

Collaborated with cross-functional teams, delivering high-quality software solutions and achieving a 15% increase in productivity. Developed and optimized a complex AR mobile application, enhancing user engagement. Created a data warehouse application, improving data management efficiency by 20%. Conducted code reviews, testing, and troubleshooting to ensure code quality and resolve technical issues.

Projects

P&M Website   Github link here

Developed a wedding website using JavaScript, CSS, and SCSS. JavaScript enabled dynamic content and enhanced user interactions. CSS ensured a visually appealing and responsive design. SCSS facilitated complex animations and streamlined styling with variables and mixins in SCSS. These technologies provided a seamless, engaging, and aesthetically pleasing solution for the wedding website.

FurnX   Github link here

Developed an award-winning AR furniture app using Unity, React Native, and C#. Leveraged Unity for AR environments and Blender for 3D models. Used C# for seamless interactions and real-time updates. React Native ensured compatibility across iOS and Android. The app allowed users to visualize furniture in real space at actual size, enhancing purchase decisions. Recognized as the best AR application for its innovative use of technology.

Certifications

Earned React Native app development from Udemy in June 2023.

Ui/Ux Advanced Design from Cloud academy in Jan 2022

Block chain essential from SRM university in March 2022

Skills

Web Development Tools and Technologies: React, HTML, CSS, JavaScript, SCSS, Node.js for backend, Versal for hosting, Git for version control, and also UI/UX Design

Aws cloud, Services: EC2, S3, SNS, CloudWatch and Lambda

App Development Tools and Technologies: React Native, JavaScript, MySQL for backend services, Git for version control, UI/UX Design for complete application

AR/VR Development Tools and Technologies: Unity using C#, Blender for 3d modelling
